

**Facilitator:** Hugo Ekstrand

**Participants:** Hugo Ekstrand, Love Gustafsson, Isak Gustafsson, Elias Ersson, Leo Karlsson Oinonen

**Date:** 2021-09-03

# Meeting Agenda

Group meeting for group C7 with supervisor

## §1 Objectives

- We need to explain what the project is and if it is reasonable.
- We need to clear up how broad a user story can be.
- Is our RAD detailed enough.
- What is the next step after user stories?

## §2 Reports

## §3 Discussion Items

1. Discuss if the project is reasonable in complexity.
2. We are unsure what should be a user story. Is for example: "I am a painter and I want to be able to use a brush on a canvas" too broad. If it is so, then how do we create the "base"/fundamental tasks/stories?
3. How detailed should the RAD be?
4. Which group rooms have whiteboards?

## §4 Outcomes and assignments

**Outcomes:**

1. Yes, it was considered reasonable and expandable.
2. Keep them as short and simple as possible. They can be for the developers too.
3. RAD should mainly be for us. It is also useful to look at how others have written so that we can get a basic idea of how in depth it should be written.
4. The supervisor will send us a mail.

## §5 End of Meeting

Next meeting is TBD, will wait until next dependent meeting.
