Meeting Agenda

Group meeting for group C7

§1 Objectives

- Design model and domain model
- Choose first user stories

§2 Reports

Elias Ersson and Isak Gustafsson:

- Worked on prototyped for drawing on a frame.

Hugo Ekstrand:

- Put travis into the project and added maven dependencies for junit and javafx.

§3 Discussion Items

1. Look and domain model
2. Pick initial user stories
3. Discuss basic design model

§4 Outcomes and assignments

Outcomes:

1. We will discuss the how well the domain model is tomorrow with the supervisor; we think it is sufficient currently.
2. We choose a few starting user stories and broke them into tasks so that we can work with them till the next week (next sprint).
3. We started thinking about the design model and made some preliminary interfaces to core items in it so that work can be started in the sprint.

Assignments:

§5 End of Meeting

We didn't quite get the time to assign tasks so we will do that during either the next meeting or via chat.

Next meeting is Friday 2021-10-09 14:00 at EG-3207A (/w supervisor)
