

Facilitator: Hugo Ekstrand

Participants: Hugo Ekstrand, Elias Ersson, Love Gustafsson

Date: 2021-10-12

Meeting Agenda

Group meeting for group C7

§1 Objectives

§2 Reports

Hugo Ekstrand has:

- Created transformation tools for manipulating layers.
- Also changed Brush so that it compensates for layers being scaled or rotated. (So a brush size and pattern orientation is always consistent with the global reference state. That is, if a layer is rotated the brush does not draw a rotated pattern).
- Written on the peer review.

Love Gustafsson:

- Made color immutable.
- Written on the peer review.

Elias Ersson:

- Continued working on getting the layer controller and view to work.
- Written on the peer review.

§3 Discussion Items

1. Selecting layers by simply clicking on a layer? It seems unintuitive that one cannot switch the working layer by simply clicking on it.

§4 Outcomes and assignments

Outcomes:

1. Love will create a method “getTopMostLayerAtPoint” so that we can select a layer by simply clicking on it rather than using the layer controller.

Assignments:

Hugo Ekstrand will:

Facilitator: Hugo Ekstrand

Participants: Hugo Ekstrand, Elias Ersson, Love Gustafsson

Date: 2021-10-12

- Implement user story for exporting images.

Love Gustafsson will:

- Make a factory for ILayer so that we minimize concrete dependencies.

Elias Ersson:

- Continue working on the layer view/controller.

§5 End of Meeting

Next meeting is Thursday 2021-10-14 13:00 at M1222A
