Facilitator: Hugo Ekstrand
Participants: Hugo Ekstrand, Love Gustafsson, Isak Gustafsson, Elias Ersson
Date: 2021-09-16

Meeting Agenda

Group meeting for group C7

§1 Objectives

- We need to get the first run done.
- We need to start looking at design model and write in the SDD.

§2 Reports

We are starting to finish the first run, but it will probably take till the beginning of next week before everyone's done.

Love Gustafsson has:
- Started implementing transforms in layers.
- Starting to write tests for color and layer.

Hugo Ekstrand has:
- Finished the tool user story and integrated it into the dev branch.
    - Refactored brush tools so that they use IBrushEffects for increased open-closedness.
    - Worked a bit on the RAD by updating the domain model description.

Elias Ersson has:
- Have continued work on the view by linking together tools and layers.
    - Added a toolbox window
    - Starting to get something which can be drawn on

Isak Gustafsson has:
- Has started to finish the loading images task and begun integrating it into the dev branch.

§3 Discussion Items

1. What do we have left before the first run is done?
2. We need to write up a design model for each package and write in the SDD.

§4 Outcomes and assignments

Outcomes:

Facilitator: Hugo Ekstrand
Participants: Hugo Ekstrand, Love Gustafsson, Isak Gustafsson, Elias Ersson
Date: 2021-09-16

1. We have some issues merging all the different branches, but we are reaching the finishing line since layers are approaching done and the view is starting to be usable.
2. We decided that we will write on the SDD a bit every time we finish a task or user story.

Assignments:

Isak Gustafsson:

- Do finishing touches on loading images (create tests) and start a user story for saving images (layers).

Love Gustafsson:

- Continue working on layers and canvas. Finnish transformations, rotations, and translations. Also add tests.

Elias Ersson:

- Continue with view and getting the view to work. Also adding tool the toolbox.

Hugo Ekstrand:

- Refactor tools interface so that it takes two vectors and a layer at runtime instead of a layer at creation. Also write on SDD about tools. Also implement user story for tool properties.

§5 End of Meeting

Next supervisor meeting is Friday 2021-09-17 11:00 at KG34
